

Reporting Community Service for PPC

With the National system for reporting discontinued we are asking Units to report service hours on Scoutbook (for your individual records and advancement) **and** also via the

PPC App

or

PPC Website <https://247scouting.com/forms/?OrgKey=BSA358&id=522>

The app and website are very user friendly. You do not need a Unit ID # to enter hours.

This will be the only way PPC will be able to track our Eagle project hours and other service hours moving forward.

For 2020, we have a Service hours report for Eagle projects and other service hours that were previously reported on the National site prior to May 31, 2020.

Eagle project hours should be reported on the app or website. Certificates for Eagle Boards of Review are no longer needed

Any service hours, including Eagle projects, that have occurred after May 31 or that were done before May 31 but not reported on the national site will need to be reported via the website or app. Remember, you can report hours from any project done during the year prior to Dec. 31, 2020.

If you have any questions, please reach out to
