

Recommendations for Scouts, Parents and Leaders to Sell Popcorn in a Safe Manner

Show & Sell

- Build an appealing display, but do not hand products to customers.
 - Scouts should be familiar with the products so they can describe them to the customer.
 - You can look at a product label if needed to answer a specific question.
 - Tell the customer your favorites!
- Wear gloves and give the products to the customer only when sold. You can put their order down in one place and let them pick it up when they are done paying.
- Scouts, parents, and leaders should wear masks at the sales table or display.
- Try and spread out so that Scouts and customers can maintain the correct distance.
- Use the Square credit card reader for sales. Have the customers swipe or insert their credit cards while you hold the device if they want.
 - Remember contactless sales like Apple Pay and Google Wallet!
 - Be sure to wipe off your device after each use following the device manufacturer's recommendations
- Bring small bills to make change. Keep all money in a secure money box. Remember to use hand sanitizer after each transaction.
- Consider having the payment all done in one location. A Scout can escort his or her customer to the payment location.
- Bring extra masks, gloves, sanitizing wipes and hand sanitizer.

Take Order/Show & Deliver

- Wear a face covering.
- Have an adult come with you or sell in pairs.
- Stay outside the house, even if you are invited in. It is a Scout rule.
- Avoid selling after dark unless there is an adult with you.
- Wear gloves and give the products to the customer only when sold.
- Walk on sidewalks, not streets. Be aware when crossing streets and driveways.
- If you visit a house and no one is home, leave a door hanger.
 - You can leave your parent's email or cell phone so the customer can contact you with an order.
 - Delivery can be:
 - CONTACTLESS – Scout will leave the order on the doorstep at an agreed upon date/time (requires credit card information with order; can get this information over the phone).
 - CURBSIDE – Set up a date/time for delivery (customer can pay with cash, check or credit card)

Online

- Use social media to let friends and family know about your sale.
- Customers enter your Scout Key Code when they place an order so you get the sale credit.
- The product ships directly to the customer.
- Shipping is FREE!
