About #MonthOfService

The most powerful way to thank a chartered organization is to provide service. This campaign is encouraging units to help their chartered organization by doing community service for them during the month of October and then sharing their story through the portal located at <https://ppcbsa.org/story/> and on social media using #MonthofService.

Why #MonthOfService

To promote the good Scouts do in their community and create goodwill with chartered organizations.

To share Scouting stories that show the impact Scouting has in the community.

To be part of the conversation and learn about other service ideas.

It's an exciting time to be part of the BSA for many reasons. One of those is that new communication vehicles now enable current and past Scouts and Scouters, and those interested in participating to learn directly about Scouting. By using the [Share Your Story link](#), and online social media tools such as Facebook and Instagram, we can help others find out more about Scouting and what we are doing.
