

Safety Enhancements at our Properties

The Patriots' Path Council has made numerous safety enhancements at Mount Allamuchy Scout Reservation and Winnebago Scout Reservation to protect our Scouts, leaders, and staff. Our goal is to raise awareness of safety and to safeguard our campers and families so that they feel comfortable participating in Scouting activities at our properties. Our council has been nationally recognized for our proactive approach and will continue to add safety enhancements as ideas are presented by industry experts as well as Scouters. These ideas will be reviewed and if appropriate implemented by our volunteer and professional leadership along with security experts.

Phase 1 - Completed

- Security cameras in public areas of our camps
- Safety and electronic surveillance assessments by law enforcement agencies
- License plate reader / movement detector at Winnebago Scout Reservation
- Wrist band systems for year-round usage to help identify different groups in our camps
- Safety posters in public areas and campsites at our camps
- Guard shacks at both of our camps

Phase 2 - Spring 2024

- Expert training provided to our camp ranger's dog to detect electronic equipment
- Upgraded electrical service at Mount Allamuchy Scout Reservation
- Enhanced lighting at camp entrances
- License plate reader / movement detector at Mount Allamuchy Scout Reservation
- Security gates (arm barrier) and speed bumps at our camps
- Cellular connected trail cameras at strategic camp remote perimeter sites

Phase 3 - Summer 2024

- Fortify internal communications through new fiberoptic solution at Mount Allamuchy Scout Reservation
- Security cameras at council service center

**OUR
COMMITMENT**
TO SAFE SCOUTING
